Ability to read and comprehend specialized English documents and engaging in basic communication.

#### **EDUCATION**

# VNU-HCM University of Information Technology

Software Engineering

GPA: 3,0/4,0

#### **OBJECTIVES**

Seeking a Frontend developer Intern role to enhance my skills in HTML, CSS, JavaScript, and ReactJS. Took part in developing responsive UI components and integrating APIs in a team project.

#### **PERSONAL PROJECTS**

#### **Shoes Shop Management**

11/2024 - 12/2024

09/2021 - 09/2025

Team size: 2 members

#### **Technology stack:**

- Front-end: Reactjs, JavaScript, Tailwind CSS.
- Back-end: ASP.NET, Web API, Entity Framework.
- Database: MongoDB

#### **Key features:**

- Browse a wide range of products with categories, prices, images, and stock quantities.
- Track and update inventory in real-time with alerts for low-stock items.
- Handle sales and orders with invoice generation, and order history.
- Manage customer records, including contact details, purchase history, and loyalty programs.
- Generate reports on sales, inventory, and customer activity for business insights.

#### Responsibility:

- Design UI with figma
- Build FE base source and UI components using Reactjs
- Integrate and handle RestfulAPIs to connect and process data
- Responsive UI layout on multi devices
